

**Summary Plan Information
for Employers and Employee Representatives of
the AFTRA Retirement Fund**

This notice provides summary plan information about the AFTRA Retirement Fund (the Fund) (Employer Identification Number 13-6414972; Plan Number 001), as required under section 104(d) of the Employee Retirement Income Security Act of 1974 (ERISA).

Unless otherwise noted, the information provided relates to the plan year that began December 1, 2011 and ended November 30, 2012 (referred to herein as the 2011 Plan Year).

Contributions

The Fund contributions are paid by employers on behalf of employees performing covered work under collective bargaining agreements (CBAs) with the Screen Actors Guild-American Federation of Television and Radio Artists (SAG-AFTRA; prior to March 30, 2012, the American Federation of Television and Radio Artists) that require the payment of contributions to the Fund.

Contribution amounts are based upon the rates outlined in the corresponding CBA under which covered work was performed. The contribution rates in effect during the 2011 Plan Year ranged from 4.0% to 16.8% of the performer earnings to which they apply. Contribution rates may be expressed as a total rate for contributions to both the Fund and the AFTRA Health Fund, in which case there is a formula for allocating contributions as between the two.

There were no (0) participants in the Fund on whose behalf no contributions were made by an employer as an employer on the participant's behalf for the 2011 Plan Year. For the prior two plan years, there were no (0) such participants.

Employers

A total of 1,970 employers were obligated to contribute to the Fund during the 2011 Plan Year. The following three (3) employers each contributed more than 5% of the Fund's total contributions for the 2011 Plan Year: NBC, CBS Broadcasting, Inc., and ABC.

Benefit formulas

The formulas used to calculate participants' pension benefits under the Fund's plan of benefits (the Plan) are listed below.

- *For covered work prior to May 1, 2009* – Covered earnings for each Base Year in which a performer earned a Pension Credit¹ multiplied by the Retirement Plan's benefit accrual rate.²

¹ If a performer meets a minimum covered earnings threshold in a "Base Year" (December 1 - November 30), that performer earns a Pension Credit for that year. Performers who accumulate at least five Pension Credits become vested for a Retirement Plan pension benefit. For complete information, refer to pages 11-17 of the 2013 Retirement Plan Summary Plan Description, which is available at www.aftra.com ("Retirement Fund" | "Retirement Plan SPD").

² For a summary of historical benefit accrual rates, refer to page 25 of the 2013 Retirement Plan Summary Plan Description, which is available at www.aftra.com ("Retirement Fund" | "Retirement Plan SPD").

- *For covered work on or after May 1, 2009* – The total amount of employer contributions credited (to both the Fund and the AFTRA Health Fund) on a performer’s behalf in each Base Year in which such performer earned a Pension Credit multiplied by the contribution-based accrual rate of 4.86%.³ However, effective December 1, 2013, the contribution-based accrual rate will be increased to 7.00%, with respect to covered contributions credited for the period from May 1, 2009 through November 30, 2012. The accrual rate of 4.86% will still apply to covered contributions on and after December 1, 2012.⁴

Retirement Fund status and additional information

The Fund was not in critical or endangered status for the 2011 Plan Year. The Fund did not merge with another plan and there was no transfer of assets or liabilities to or from any other plan during the 2011 Plan Year.

One participating employer withdrew from the Fund during the preceding plan year, which ended November 30, 2011 (the 2010 Plan Year). That employer was Air America and the aggregate amount of the withdrawal liability assessed was \$35,465.00.

The Fund applied for and received an amortization extension under Section 304(d) of ERISA for the plan year beginning December 1, 2008 (the 2008 Plan Year). This amortization extension remained in effect for the 2011 Plan Year, to the extent allowed by law. The Fund did not employ the “shortfall funding method” described in Section 305 of ERISA for the 2011 Plan Year.
